No.1
The Universal E-String

- wound steel E-string
- warm, sweet and brilliant sound
- outstanding response
- no whistling of the open E-string

DESCRIPTION

No.1 Violin String

Features

- The No.1 E-string has a coated carbon steel core material with a high-tensile strength and is wound with a very thin chrome steel flat-wire.
- warm, sweet and brilliant sound
- outstanding response

- no whistling of the open E-string
- As the No.1 E-string is wound with chrome steel, it is long-lasting. Chrome steel cannot corrode and is not affected by hand perspiration.

Gauges

- soft, medium, strong

Tailpiece Options

- The No.1 is available with ball or loop-end.

Packaging

- envelope

Sizes

- No.1 E-string is available in 4/4.

NEWS NOV 2002

The No.1 E-string is a newly designed string that offers a full rounded off and sustainable tone in all positions, whilst at the same time maintaining full flexibility over the whole dynamic range.

This string is based on a coated carbon steel core material with a high-tensile strength and is wound with a very thin chrome steel flat-wire.

Outstanding features are the string's brilliant yet sweet sound, the outstandingly easy response preventing the whistling of the empty strings.

The No.1 E-string has been specifically designed to be "universal" and can be matched with all existing A-, D- and G-strings.
